

# Drinking Water Additive

Part No. RXSOL-40-4236-025 — Generated 06 Oct 2026

## 1. Product and Company Identification

|              |                         |
|--------------|-------------------------|
| Product Name | Drinking Water Additive |
| Part Number  | RXSOL-40-4236-025       |

### Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

Branch : Kandla, Mumbai , Chennai, Vizag, Kolkata, UAE , OMAN , CANADA and KENYA

|         |                                                          |

## 2. Composition / information on ingredients

| Chemical Name | CAS       | EC number | Weight  | Formula          |
|---------------|-----------|-----------|---------|------------------|
| Water         | 7732-18-5 | 231-791-2 | = 100 % | H <sub>2</sub> O |

## 3. Hazards Identification

|                                            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|--------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Signal Word                                | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Hazard Statements                          | H302 + H312 Harmful if swallowed or in contact with skin. H318 Causes serious eye damage.                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Precautionary statements                   | P264 Wash skin thoroughly after handling. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P301 + P312 IF SWALLOWED: Call a POISON CENTER/ doctor if you feel unwell. P302 + P352 + P312 IF ON SKIN: Wash with plenty of water.Call a POISON CENTER/ doctor if you feel unwell. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P362 + P364 Take off contaminated clothing and wash it before reuse |
| Classification of the substance or mixture | Not a hazardous substance or mixture according to Regulation (EC) No. 1272/2008.                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Supplemental Hazard Statements             | None.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Other hazards                              | This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.                                                                                                                                                                                                                                                                                                                                        |

## 4. First Aid Measures

|                |                                                                           |
|----------------|---------------------------------------------------------------------------|
| General advice | No hazards which require special first aid measures.                      |
| If inhaled     | After inhalation: fresh air.                                              |
| Eye Contact    | After eye contact: rinse out with plenty of water. Remove contact lenses. |

|                                                                            |                                                                                                                                                            |
|----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Swallowed                                                                  | After swallowing: make victim drink water (two glasses at most). Consult doctor if feeling unwell.                                                         |
| Skin Contact                                                               | In case of skin contact: Take off immediately all contaminated clothing. Rinse skin with water/ shower.                                                    |
| Inhalation                                                                 | Remove patient to fresh air, keep warm and at rest and get medical assistance in necessary.                                                                |
| Ingestion                                                                  | Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an unconscious person. Call a doctor or Poison Control Center immediately. |
| Most important symptoms and effects, both acute and delaye                 | The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11                                        |
| Indication of any immediate medical attention and special treatment needed | No data available                                                                                                                                          |

## 5. Fire-fighting Measures

|                                                       |                                                                                                                                                          |
|-------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Flammability                                          | Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.                                                                                 |
| Flash Point                                           | Dry powder Dry sand                                                                                                                                      |
| Suitable extinguishing media                          | Water Foam Carbon dioxide (CO2) Dry powderUse extinguishing measures that are appropriate to local circumstances and the surrounding environment.        |
| Unsuitable extinguishing media                        | For this substance/mixture no limitations of extinguishing agents are given.For this substance/mixture no limitations of extinguishing agents are given. |
| Special hazards arising from the substance or mixture | Not combustible. Ambient fire may liberate hazardous vapours.                                                                                            |
| Further information                                   | None                                                                                                                                                     |
| Hazardous combustion products                         | Fire may cause the evolution of Sulphur oxides, nitrogen oxides.                                                                                         |
| Advice for firefighters                               | In the event of fire, wear self-contained breathing apparatus.                                                                                           |
| Protective Equipment                                  | Use personal protective equipment.                                                                                                                       |
| Specific Hazards Arising from the Chemical            | Oxides of phosphorus Sodium oxides Not combustible. Fire may cause evolution of: Oxides of phosphorus Ambient fire may liberate hazardous vapours.       |

## 6. Accidental Release Measures

|                                                                     |                                                                                                                                                                                                                                                                                                                                         |
|---------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | Advice for non-emergency personnel: Do not breathe vapors, aerosols. Evacuate the danger area, observe emergency procedures, consult an expert. For personal protection see section 8.                                                                                                                                                  |
| Spillage                                                            | Oxidizing material. Stop leak if without risk. Avoid contact with a combustible material (wood, paper, oil, clothing...). Keep substance damp using water spray. Do not touch spilled material. Prevent entry into sewers, basements or confined areas dike if needed. Eliminate all ignition sources. Call for assistance on disposal. |
| Enviromental Precaution                                             | No special precautionary measures necessary.                                                                                                                                                                                                                                                                                            |
| Methods and materials for containment and cleaning                  | Observe possible material restrictions (see sections 7 and 10). Take up with liquidabsorbent material (e.g. Chemizorb® ). Dispose of properly. Clean up affected area.                                                                                                                                                                  |

## 7. Handling and Storage

|                         |                                                   |
|-------------------------|---------------------------------------------------|
| Advice on safe handling | Work under hood. Do not inhale substance/mixture. |
|-------------------------|---------------------------------------------------|

|                                                 |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on protection against fire and explosion | Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Incompatible materials                          | Keep away from alkalis, strong oxidizing agents and metals. Provide containment walls of adequate capacity to hold any accidental spills.                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Hygiene measures                                | Immediately change contaminated clothing. Apply preventive skin protection. Wash hands and face after working with substance. For precautions see section 2.2.                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Precautions for safe handling                   | For precautions see section 2.2.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Storage conditions                              | No special storage conditions required. Tightly closed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Storage class                                   | Storage class (TRGS 510): 12: Non Combustible Liquids                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Specific end use(s)                             | Apart from the uses mentioned in section 1.2 no other specific uses are stipulated                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Handling                                        | Keep away from heat. Keep away from sources of ignition. Keep away from combustible material.. Empty containers pose a fire risk, evaporate the residue under a fume hood. Ground all equipment containing material. Do not ingest. Do not breathe dust. Wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. If ingested, seek medical advice immediately and show the container or the label. Avoid contact with skin and eyes. Keep away from incompatibles such as reducing agents, combustible materials, organic materials, metals |
| Advice on general occupational hygiene          | Advice on safe handling Observe label precautions. Change contaminated clothing. Wash hands after working with substance.                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Requirements for storage                        | Keep in cool and store under shade.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

## 8. Exposure controls and personal protection

|                                   |                                                                                                                                                             |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exposure controls                 | Appropriate engineering controls Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. |
| Control parameters                | Ingredients with workplace control parameters Contains no substances with occupational exposure limit values.                                               |
| Engineering Control               | Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.                                  |
| Eye/face protection               | Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses                |
| Body Protection                   | Protective clothing                                                                                                                                         |
| Skin protection                   | Not required                                                                                                                                                |
| Respiratory protection            | Not required; except in case of aerosol formation.                                                                                                          |
| Other Protection Measure          | Handle in accordance with good industrial hygiene and safety practice.                                                                                      |
| Control of environmental exposure | No special precautionary measures necessary.                                                                                                                |

## 9. Physical and chemical properties

|                |                   |
|----------------|-------------------|
| Physical state | Liquid            |
| Colour         | Colorless         |
| Odour          | No data available |
| Odor Threshold | Not Applicable    |

|                                              |                               |
|----------------------------------------------|-------------------------------|
| pH                                           | 6,0 - 8,0 at 25 °C            |
| Melting Point                                | 0,0 °C                        |
| Boiling Point                                | 100 °C - lit.                 |
| Flash Point                                  | No data available             |
| Evaporation Rate                             | Not Applicable                |
| Flammability (solid, gas)                    | No data available             |
| Explosive limits                             | No Data Available             |
| Upper/lower flammability or explosive limits | No data available             |
| Autoignition temperature                     | No data available             |
| Decomposition temperature                    | No data available             |
| Vapour pressure                              | No data available             |
| Density                                      | 1,000 g/cm3 at 3,98 °C - lit. |
| Relative Density                             | No data available             |
| Freezing point                               | No data available             |
| Specific Gravity                             | No data available             |
| Partition coefficient                        | log Pow: -0,467 -             |
| Explosive properties                         | No data available             |
| Solubility                                   | No data available             |
| Ignition temperature                         | No information available.     |
| Particle characteristics                     | No data available             |

## 10. Stability and reactivity

|                                    |                                                                                         |
|------------------------------------|-----------------------------------------------------------------------------------------|
| Reactivity                         | No data available                                                                       |
| Stability                          | The product is chemically stable under standard ambient conditions (room temperature) . |
| Possibility of hazardous reactions | Violent reactions possible with: The generally known reaction partners of water.        |
| Conditions to avoid                | No data available                                                                       |
| Incompatible materials             | No data available                                                                       |
| Hazardous decomposition products   | In the event of fire: see section 5                                                     |

## 11. Toxicological information

|                                   |                                                                                                                                                                                                                           |
|-----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Acute toxicity                    | LD50 Oral - Rat - > 90.000 mg/kg Remarks: (RTECS) Inhalation: No data available Dermal: No data available                                                                                                                 |
| Skin corrosion/irritation         | No data available                                                                                                                                                                                                         |
| Serious eye damage/eye irritation | Eyes - Rabbit Result: Risk of serious damage to eyes. - 24 h(OECD Test Guideline 405)                                                                                                                                     |
| Respiratory or skin sensitization | Local lymph node assay (LLNA) - Mouse Result: negative (OECD Test Guideline 429)                                                                                                                                          |
| Toxic Effects on Human            | May cause damage to the following organs: upper respiratory tract. Other Toxic Effects on Humans: Hazardous in case of skin contact (irritant, sensitizer), of ingestion, of inhalation (lung irritant, lung sensitizer). |
| Carcinogenicity                   | No data available                                                                                                                                                                                                         |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| Reproductive toxicity                            | No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Specific target organ toxicity - single exposure | No data available                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Special Remarks on other Toxi Effects on Humans  | Acute Potential Health Effects: Skin: Causes skin irritation. May cause skin sensitization, an allergic reaction, which becomes evident upon re-exposure to this material. Eyes: Causes eye irritation. Ingestion: Causes gastrointestinal (digestive) tract irritation with nausea, vomiting, and diarrhea. May be harmful if swallowed. Inhalation: Causes respiratory tract irritation. May cause chemical pneumonitis and pulmonary edema, inflammation, edema of bronchi and larynx. Chronic Potential Health Effects: Repeated or prolonged skin exposure may cause allergic reactions in sensitive individuals. Repeated or prolonged exposure by inhalation may affect respiration and metabolism. |
| Endocrine disrupting properties                  | The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. RTECS: ZC0110000 To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated. To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.                                                                                                                                                                           |

## 12. Ecological information

|                                                     |                                                                                                                                                                                                                                                             |
|-----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Bioaccumulative potential                           | Bioaccumulation Oncorhynchus tshawytscha(Disodium molybdate dihydrate) Remarks: No data available                                                                                                                                                           |
| Persistence and degradability                       | Biodegradability aerobic - Exposure time 20 d Result: 89 % - Readily biodegradable. Remarks: (ECHA)                                                                                                                                                         |
| Toxicity to fish                                    | Static test LC50 - Leuciscus idus melanotus - 160 mg/l - 48 h Remarks: (ECHA)                                                                                                                                                                               |
| Toxicity to daphnia and other aquatic invertebrates | EC50 - Daphnia magna (Water flea) - 162,2 mg/l - 48 h (OECD Test Guideline 202)                                                                                                                                                                             |
| Toxicity to algae                                   | Static test ErC50 - Pseudokirchneriella subcapitata (green algae) - 19,83 - 21,35 mg/l - 72 h (OECD Test Guideline 201)                                                                                                                                     |
| Toxicity to bacteria                                | Static test EC50 - activated sludge - 820 mg/l - 3 h (OECD Test Guideline 209) Remarks: The value is given in analogy to the following substances: disodium molybdate                                                                                       |
| Products Biodegradation                             | The methods for determining the biological degradability are not applicable to inorganic substances.                                                                                                                                                        |
| Mobility in soil                                    | No Information available                                                                                                                                                                                                                                    |
| Results of PBT and vPvB assessment                  | This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.                                                          |
| Endocrine disrupting properties                     | The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher. |
| Other adverse effects                               | No data available                                                                                                                                                                                                                                           |

## 13. Disposal considerations

|                        |                                                                                                                                                                                                                                                          |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Disposal methods       | The material can be disposed of by removal to a licensed chemical destruction plant or by controlled incineration with flue gas scrubbing. Do not contaminate water, foodstuffs, feed or seed by storage or disposal. Do not discharge to sewer systems. |
| Contaminated packaging | Dispose of as unused product.                                                                                                                                                                                                                            |

Waste treatment      See [www.retrologistik.com](http://www.retrologistik.com) for processes regarding the return of chemicals and containers, or contact us  
Method                    there if you have further questions.

## 14. Transport information

|                            |                                                                      |          |          |
|----------------------------|----------------------------------------------------------------------|----------|----------|
| UN number                  | ADR/RID:                                                             | IMDG:    | IATA:    |
| UN proper shipping name    | ADR/RID:                                                             | IMDG:    | IATA:    |
| Transport hazard class(es) | ADR/RID:                                                             | IMDG:    | IATA:    |
| Packaging group            | ADR/RID:                                                             | IMDG:    | IATA:    |
| Environmental hazards      | ADR/RID: NO                                                          | IMDG: NO | IATA: NO |
| Further information        | Not classified as dangerous in the meaning of transport regulations. |          |          |

## 15. Regulatory information

|                                                                                                |                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inventory status                                                                               | Components are on the following inventories: Polymaleic acid: - US TSCA, Canadian DSL, EU EINECS, Australian AICS, Korean, Philippine PICCS and Chinese Xi irritant R 36/38 Irritant to eyes & skin R 41 Risk of serious damage to eyes S24/25 Avoid contact with skin and eyes S26/28 In case of contact eyes & skin, rinse with plenty water and seek medical advice Section 312/313: Not listed. Not listed under California proposition 65. |
| Safety, health and environmental regulations/legislation specific for the substance or mixture | This material safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006.                                                                                                                                                                                                                                                                                                                                                |
