

# Sodium Bifluoride

Part No. RXSOL-26-6237-025 — Generated 03 Oct 2026

## 1. Product and Company Identification

|                                                                                              |                                                          |
|----------------------------------------------------------------------------------------------|----------------------------------------------------------|
| Product Name                                                                                 | Potassium Bi Fuloride                                    |
| Product Type                                                                                 | RXSOL-19-6237-025                                        |
| <b>Company Details:</b>                                                                      |                                                          |

| Phone                                                                                        | +91 22 27815540 / 41 / 42                                |
| Fax                                                                                          | +91 22 2781 1318 ::AOH :0091 9821214367                  |
| Email                                                                                        | <a href="mailto:mail@rxmarine.com">mail@rxmarine.com</a> |

## 2. Composition / informationon ingredients

| SARA 313<br>Component    | CAS<br>Number     | Percent<br>Comp. | UN<br>No | IMCO<br>Code | Packing<br>Group |
|--------------------------|-------------------|------------------|----------|--------------|------------------|
| Potassium Bi<br>Fluoride | CAS#<br>7789-29-9 | 99               | 1811     | 8            | II               |

## 3. Hazards Identification

Potassium Bifuloride CAS NO : 7789-29-9, UN NO : 1811, IMCO CODE : 8, PACKING GROUP : II  
May be harmful if swallowed. May cause irritation. Avoid breathing vapors, or dusts. Use with adequate ventilation. Avoid contact with eyes, skin, and clothes. Wash thoroughly after handling.

Emergency Overview:POISON! DANGER! CORROSIVE. LIQUID AND MIST CAUSE SEVERE BURNS TO ALL BODY TISSUE. MAY BE FATAL IF SWALLOWED. HARMFUL IF INHALED. INHALATION MAY CAUSE LUNG AND TOOTH DAMAGE. FLAMMABLE LIQUID AND VAPOR. CORROSIVE!

Inhalation:Inhalation of Vapors can cause Coughing, Choking, Inflammation, of the Nose, Throat,and Upper Respiratory Tract, and in Severe Cases, Pulmonary Edema, Circulatory Failure, and Death.

Ingestion:CORROSIVE! Swallowing can cause Immediate Pain and Burns of the Mouth, Throat,Esophagus, and Gastrointestinal Tract. May cause Nausea, Vomiting, and Diarrhea, and in Severe Cases, Death.

Skin:CORROSIVE! Can cause Redness, Pain, and Severe Skin Burns. Concentrated Solutions Cause Deep Ulcers and Discolor of Skin.

CORROSIVE! Vapors are Irritating and May cause Damage to Eyes. Contact May cause Severe Burns and Permanent Eye Damage.

Chronic Exposure:Eye Contact:Long-Term Exposure to Concentrated Vapors May cause Erosion of Teeth. Long-Term Exposures Seldom Occur due to the Corrosive Properties of the Acid.

Aggravated by Exposure:Persons with Pre-Existing skin Disorders or Eye Disease May be more Susceptible to the Effects of this Substance.

## 4. First Aid Measures

May be harmful if swallowed. May cause irritation. Avoid breathing vapors, or dusts. Use with adequate ventilation. Avoid contact with eyes, skin, and clothes. Wash thoroughly after handling

|             |                                                                                                                                     |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------|
| SKIN:       | Remove contaminated clothing. Wash exposed area with soap and water. if irritation persists, seek medical attention.                |
| EYES:       | Wash eyes with plenty of water for at least 15 minutes, lifting lids occasionally. Seek Medical Aid.                                |
| INHALATION: | Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen                          |
| INGESTION:  | If swallowed, induce vomiting immediately after giving two glasses of water. Never give anything by mouth to an unconscious person. |

## 5. Fire-fighting Measures

|                           |                                                                                                            |
|---------------------------|------------------------------------------------------------------------------------------------------------|
| Fire Extinguisher Type:   | Any means suitable for extinguishing surrounding fire                                                      |
| Fire / Explosion Hazards: | None                                                                                                       |
| Fire Fighting Procedure:  | Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and clothing. |

## 6. Accidental Release Measures

Dispose of in a manner consistent with federal, state and local regulations.

Ventilate Area of Leak or Spill. Keep Unnecessary and Unprotected People away from Area of Spill. Wear Appropriate Personal Protective Equipment as Specified in Section 8. Contain and Recover Liquid when Possible. Collect Liquid in a Appropriate Container and Absorb with Dry Sand, Vermiculite, Earth or other Inert Substance and Package in a Suitable Container for Disposal. Do Not Flush to Sewer!

## 7. Handling and Storage

Store in a cool, dry, well-ventilated place away from incompatible materials. Wash thoroughly after handling.

## 8. Exposure controls and personal protection

|                            |                                                    |
|----------------------------|----------------------------------------------------|
| Respiratory Protection     | NIOSH/MSHA-approved respirator                     |
| Ventilation                | Local                                              |
| OTHER                      | Mechanical                                         |
| Protective Gloves          | NIOSH Approved Gloves                              |
| EYE PROTECTION             | Goggles and Face Shield                            |
| Other Protective Equipment | Wear appropriate clothing to prevent skin exposure |

## 9. Physical and chemical properties

|               |                           |
|---------------|---------------------------|
| BOILING POINT | information not available |
|---------------|---------------------------|

|                              |                                 |
|------------------------------|---------------------------------|
| VAPOR PRESSURE               | information not available       |
| MELTING POINT                | information not available       |
| VAPOR DENSITY                | not available                   |
| EVAPORATION RATE             | information not available       |
| Appearance /Odors            | Clear,colorless,odorless liquid |
| Flash Point                  | information not available       |
| Specific Gravity             | information not available       |
| Percent Volatile by          | ~94%                            |
| Evaporation<br>Standard      |                                 |
| Auto Ignition Temp           | Not applicable                  |
| Lower Flamm.<br>Limit in Air | Not applicable                  |
| Upper Flamm.<br>Limit in Air | Not applicable                  |
| Solubility in Water          | Soluble                         |

## 10. Stability and reactivity

|                                        |                                                |
|----------------------------------------|------------------------------------------------|
| STABILITY                              | Stable                                         |
| CONDITIONS TO AVOID                    | Contact with incompatible materials            |
| MATERIALS TO AVOID                     | Oxidizers, corrosives, quinine & calcium salts |
| HAZARDOUS<br>DECOMPOSITION<br>PRODUCTS | Hydrogen fluoride gas                          |
| HAZARDOUS<br>POLYMERIZATION            | will not occur                                 |
| Conditions to Avoid                    | None known                                     |

## 11. Toxicological information

Hydrogen Chloride - IARC Category 3, NTP Carcinogen - Known: No

## 12. Ecological information

Environmental Fate:No Information Found.

Environmental Toxicity:No Information Found.

## 13. Disposal considerations

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements..

## 14. Transport information

DOT Classification: UN1789, Hydrochloric Acid Solution, 8,PG II

DOT Regulations may change from time to time. Please consult the most recent D.O.T. regulations.

## 15. Regulatory information

CAS# 13455-21-5 is not on the TSCA Inventory because it is a hydrate. It is considered to be listed if the CAS number for the anhydrous form is on the inventory.

## 16. Other information

Conditions aggravated/target organs: Irritation to eyes, respiratory system. Severe irritation or burns to skin and eyes. May cause cyanosis and lung injury with 1-2 day delay. Overexposure may result in fluorosis. Ingestion may cause burns to GI tract. Target organs: Skin, eyes, respiratory tract, GI tract, bones, circulatory
